

Technical Events:

1. OPPTREDON

Innovation is NOT a product. Innovation is NOT just technology and is NOT merely a concept. Innovation is a sustainable process and is a manifestation of originality, originality in thinking, and originality in conceptualizing natural inventiveness of the mind. Stretching minds little further than the normal thresholds have resulted in great innovations.

Opptreden is the stage for you to present your ideas, innovations and implementation of technology in the form of a scientific paper.

This event is the ideal platform to showcase your thinking and present your ideas and technologies in a professional manner.
